

# Hostile Zones

Certain parts of the map are marked as **Hostile Areas**. In these locations, players are allowed to kill on sight (KOS) and loot dead player bodies, without restrictions.

A few examples of these zones include:

- Cayo Perico Island
- Aircraft Carrier
- Meth

*This list is not fully complete and may be changed in the future.*

**Gun Van** is designated as a hostile area without the regular hostile zone notification. Use caution when visiting this area as players may lying in wait.
